MINUTES

Ms. Cain made a motion to accept the minutes from December 7, 2023 and to include the Nursing Reports. Ms. Brzoska seconded the motion. The roll call vote was unanimous in favor to approve.

PUBLIC HEALTH NURSES’ REPORTS

Refer to the attached December 2023 nursing reports.

DISCUSSION

Fats, Oils & Grease Regulation – Mr. Hibert spoke with the former Health Director, Tom Fitzgerald about these proposed regulations. Mr. FitzGerald’s biggest concern was who would do the inspections and enforcement. Mr. Hibert and Ms. Brzoska were concerned about the same issues, especially the section that stated the BOH would bill the establishment for inspections performed by an outside inspector. Mr. Hibert will add these regulations to the next agenda. He wants to ask other towns if they have similar regulations and how they are enforced.

Frozen Dessert License and Establish Fee – This license used to be issued, but it was eliminated when a past Health Director revised the fee schedule. Mr. Hibert wants to reinstate this license per M.G.L. regulations. The Board will send this application out with all other applications at the end of the year. The M.G.L. says the license should be issued March 1st and expire the following February 28th. The Board members voted to charge a $25 fee for the license. Mr. Hibert said he would mail the application and M.G.L. information to the 3 affected businesses in Town.
2024-2025 Budget and the Board of Health Town Report - Both are due the beginning of February. The Operations budget will be level funded. Mr. Hibert will work on the Town report.

Renewal Applications Update – Mrs. Lightcap said so far she had processed all applications except for Pasticceria, the Rec. Center, Dollar Tree and the two tanning salons. Gristmill Café needs a choke certification, the Southwick Inn needs all three certifications and The Hilltop and Mrs. Murphys had delinquent bills.

**COVID-19 Surge Appears to be Receding**

According to [recent data](https://www.cdc.gov) from the Centers for Disease Control and Prevention (CDC), the surge in COVID-19 cases that began at the start of cold-weather season appears to be subsiding. CDC reported a peak of 36,339 new hospital admissions during the week of January 6, which fell to 32,861 during the week of January 13 marking the first decline in hospitalizations since mid-November. The U.S. did, however, see a 10 percent increase in deaths from the prior week. This metric often lags behind case rates, according to experts.
